

## **Managed Lanes Joint Subcommittee Meeting**

Houston, Texas

April, 2005

Ginger Goodin informed committee members of the URL for the subcommittee website. [http://managed-lanes.tamu.edu/related\\_work/](http://managed-lanes.tamu.edu/related_work/). The managed lanes white paper is also available on this website.

Jessie Yung indicated that FHWA is working with TTI on a Managed Lanes roadmap. FHWA is putting together an international scanning tour for Managed Lanes.

Beverly Kuhn provided an update (with handouts) on Managed Lanes projects she is working on for FHWA. She also provided an overview of the TxDOT Managed Lanes Research Project.

Patrick DeCorla-Souza indicated that FHWA had completed their internal review of 24 value pricing project proposals that were received. The funding requests of the project totaled \$ 14 million. They have \$ 7.2 million available to award. May know something in July.

Research issues were discussed on various subjects by the following people:

David Ungemah – Planning

Ginger Goodin – Occupancy enforcement

Bill Finger – Design – buffer separation and conversion to HOT, pylon cost and spacing, and life-cycle cost, and enforcement location.

The following people would like to be involved in a conference call to discuss the issues papers and help develop sessions for next January's TRB meeting:

Eric Stevens

Beverly Kuhn

Jeff Buxbaum

Jim Curran

Jeff Neil

Ed Mark

Bill Finger

Katie Nees

Leah Bolotin

David Ungemah

Rod Smith
